great wines from the world's greatest houses

### de chanceny — france

*Near Saumur, the bright Crémants by De Chanceny are produced and matured (18-24 months) at the edge of the Loire. Deep beneath the earth's surface, they are cellared in the dark recesses of De Chanceny's wine caves. Naturally providing the ideal environment for aging (consistently cool temperature and high humidity, no vibration, and low light), the subterranean caves clearly contribute to the beauty within the bottle.*

### crémant de loire rosé brut nv

This gleaming pink, Méthode Champenoise sparkler shows bright, red fruit and delicate but intense aromatic character. Think: ripe strawberry, Bing cherry, pink grapefruit, with an undertone of herbaceousness, and notes of ginger and spice—particularly cardamom. Lively but balanced, with fresh, yet subtle finish. Very good length with fine, persistent bubbles. Perfect as an apéritif; or, paired with hors d'oeuvres or sushi.

90% Cabernet Franc & 10% Grolleau Noir

**P2: \$2 LTO & Mini Thematic (B)**

LCBO General List
