The Anthonij Rupert line is the flagship of the Rupert Wines portfolio. This esteemed winery sits on the historic L'Omarins estate in the Franschhoek region dating back to 1694. The AR range produces wines from Bordeaux varietals and Syrah, with a fierce focus on producing high quality premium products. Other varietals and styles of wines are produced and can be found under their Cape of Good Hope, L'Ormarins, and Protea labels. For this exclusive event, we have selected a range of wines to show off not only the diversity of what Anthonij Rupert produces, but the level of quality wines now coming out of South Africa.
